- 34. F-C3 - Airports That Have Risen from Non-Qualifying to Qualifying All-Cargo Airport Status

## **Introduction**

*The Enplanement and All-Cargo Activity* publication is a summary of enplanement data extracted from the Air Carrier Activity Information System (ACAIS). The ACAIS is a database of revenue passenger enplanement data and all cargo landing data that support the Federal Aviation Administration's (FAA) Airport Improvement Program (AIP) entitlement activities.

### **ENPLANEMENT DATA SOURCE**

Enplanement data is derived from a variety of sources. U.S. scheduled and nonscheduled large certificated air carriers submit enplanement data to the Department of Transportation/Research and Special Programs Administration (RSPA) on Form 41 Schedule T-100. Foreign Flag Air Carriers (including Canadian carriers) submit data to RSPA on Form 41 Schedule T-100(f). Comuter and small certificated air carriers submit data to RSPA on Form 298-C, Schedules T1 and E1. Air taxi/commercial operators submit their enplanement data to the FAA during an annual survey on Form 1800-31.

The data obtained from these sources are merged into ACAIS. This data is then reviewed by FAA staff and the individual airports. Erroneous or inconsistent data is coordinated with the air carrier; the appropriate revisions are made; and the data is finalized.

### **ALL-CARGO DATA SOURCE**

All-cargo data is submitted for airports with an annual minimum of 100 million pounds of all-cargo aircraft landed weight. The carrier reports the landed weight of the aircraft to the airport who reports the landed weight to the FAA on Form 5100-108. The data is certified by the carrier and the airport.

The data are compiled and reviewed by FAA staff and the airports. Erroneous or inconsistent data is coordinated with the air carrier and airport; the appropriate revisions are made; and the data is finalized.

### **DISTRIBUTION OF ENTITLEMENT FUNDS**

The Airport and Airway Improvement Act of 1982, as amended, provides for an apportionment of the Airport and Airways Trust Fund to primary airports based on a per passenger formula. Minimum and maximum apportionments are set at \$400,000 and \$22 million, respectively. Each qualifying primary airport's apportionment is calculated as follows;

- \$7.80 for each of the first 50,000 passengers enplaned,
- \$7.20 for each of the next 50,000 passengers enplaned,
- \$2.60 for each of the next 400,000 passengers enplaned, and
- \$0.65 for each additional passenger enplaned.

## Introduction (cont'd)

The definition of passengers enplaned has been expanded to include passengers onboard international flights that transit an airport located in the 50 states for non-traffic purposes. In calendar year 1991, this amounted to 2,397,115 additional enplanements in airports in Bangor, Maine; Port Angeles, Washington; Salem, Oregon; Anchorage, Alaska; and Honolulu, HI.

A portion of AIP funds is allocated among cargo service airports which handle more than 100 million pounds of all-cargo aircraft landed weight annually. Cargo entitlement funds are allocated each fiscal year based on each eligible cargo service airport's percentage of the landed weight at all eligible airports. The maximum cargo apportionment for any airport is limited to eight percent of the total cargo funds apportioned each fiscal year.

In Fiscal Year 1993, the FAA apportioned \$573,750,722 to 415 primary airports which enplaned 486,865,876 passengers during calendar year 1991. The FAA also apportioned \$63,000,000 to 84 cargo service airports with an aggregate landed weight of 87,304,546,224 pounds during calendar year 1991. The tables in this report depict air carrier enplanement and cargo landing activity used to distribute a portion of the Airport and Airways Trust Fund in support of the Airport Improvement Program.

In 1990, Congress enacted Public Law 508, Title IX, the **Aviation Safety and Capacity Expansion Act of 1990** which allows public agencies controlling commercial service airports to charge enplaning passengers using the airport a \$1, \$2, or \$3 passenger facility charge (PFC). Public agencies wishing to impose a PFC must apply to the FAA for such authority and meet certain requirements. Large and medium hub airports implementing a PFC receive a 50 percent reduction in entitlement amounts. Twenty large and medium airports received reduced FY 93 entitlement amounts of \$55,042,085.

In order to clarify terms used in this publication, a Glossary has been assembled and may be found after this Introduction.

## Glossary

**ACAIS:** Air Carrier Activity Information System

**AIP:** Airport Improvement Program, provides funding from the Airport and Airway Trust Fund for airport development, airport planning, for noise compatibility planning and to carry out noise compatibility programs.

**AIR CARRIER:** Entity providing air transportation of persons or goods for remuneration. In ACAIS, carriers are classified as follows:

- Large Certificated Route Air Carrier (LCRAC)
- Commuter & Small Certificated Air Carrier (CAC)
- Air Taxi/Commercial Operator (ATCO)
- Foreign Flag Air Carriers (FFC) Includes Canadian Air Carriers

**AIR TAXI COMMERCIAL OPERATOR:** Commercial air carrier operating on-demand air taxi services or aircraft. Certificated in accordance with FAR Part 135. Categorized in ACAIS as "ATCO."

**AIRPORT AND AIRWAYS TRUST FUND:** Mechanism for funding capital improvements for the nation's traffic control system and airports. The fund is supported by taxes contributed by users of the aviation system, including a 10% tax on airline passengers and tax on the fuel used by general aviation. Established by the Airport & Airway Revenue Act of 1970.

**ALL-CARGO CARRIER:** One of a class of air carriers holding an All Cargo Air Service Certificated issued under section 418 of the Federal Aviation Act and certificated in accordance with FAR Part 121 to provide domestic air transportation of cargo.

**APPORTIONMENT OR ENTITLEMENT:** Distribution of AIP funds from the Airport & Airways Trust Fund to airport sponsors based on enplanements or cargo landed weights. Apportionment and entitlement are used interchangeably in this context.

**CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY, "CC AND N":** A certificate issued to an air carrier under Section 401 of the Federal Aviation Act, by the Department of Transportation, authorizing the carrier to engage in air transportation.

**CERTIFICATED AIR CARRIER:** An air carrier holding a "CC and N" to conduct schedule services interstate. Nonscheduled or charter operation may also be conducted by these carriers. These carriers operate large aircraft (30 seats or more or a maximum payload capacity of 7,500 pounds or more) in accordance with FAR Part 121. Categorized in the ACAIS system as "CRAC."

**COMMERCIAL SERVICE AIRPORT:** A public airport which is determined by the Secretary to enplane annually 2,500 or more passengers and receive scheduled passenger service of aircraft. The commercial service airports are further categorized as Primary and Non-primary Commercial Service Airport (based on Airport and Airway Improvement Act of 1982).

- **PRIMARY AIRPORT** is a commercial service airport which is determined by the Secretary to have 10,000 or more passengers enplaned annually. A primary airport can be classified as a large, medium, small, or non-hub airport.
- **NON-PRIMARY AIRPORT** is a commercial service airport which is determined by the Secretary to enplane between 2,500 and 10,000 passengers annually.

**COMMUTER AIR CARRIERS:** An air carrier certificated in accordance with FAR Part 135 or 121 that operates aircraft with maximum seating of 60 and performs at least five round trips per week between two or more points and publishes flight schedules which specify the times, days of the week, and points between which such flights are performed. Categorized in the ACAIS as "CAC."

## Glossary (cont'd)

**ENPLANEMENT:** Domestic, territorial, and international revenue passengers who board an aircraft in the states in scheduled and non-scheduled service of aircraft in intrastate, interstate, and foreign commerce. Intransit passengers are included.

**FOREIGN FLAG AIR CARRIER:** An air carrier other than a U.S. flag air carrier in international air transportation. Categorized in ACAIS as "FFC."

**GENERAL AVIATION:** That portion of civil aviation which encompasses all facets of aviation except carriers holding a "CC and N" issued by the DOT.

**INTRANSIT PASSENGERS:** The Act of 1987 as amended expanded the definition of passengers enplaned used in entitlement formula of an AIP to include revenue passengers onboard international flights which transit an airport for non-traffic purposes in all 50 states.

**JOINT-USE AIRPORT:** A selection of military installations where, by Department of Defense permits some degree of civil use. Degrees of civil use include: 1) open to all civil aviation under a joint use agreement; or 2) joint-use agreement for limited use. Strictly military airports do not qualify for primary or commercial service status.

**LOADED WEIGHT:** The weight of an aircraft providing scheduled and non-scheduled service of only property (including mail) in intrastate, interstate, and foreign air transportation.

**LOCAL CERTIFICATED AIR CARRIER:** An air carrier holding a "CC and N" that: 1) operates aircraft designed to have a maximum seating capacity of more than 60 seats or maximum payload capacity of more than 18,000 pounds, categorized in ACAIS as "LCPAC."

**LOCID:** Location Identifier assigned to each U.S. airport by the Federal Aviation Administration.

**PASSENGER FACILITY CHARGE (PFC):** Public agencies controlling a Commercial Service Airport can charge enplaning passengers using the airport a \$1, \$2, or \$3 facility charge. Public agencies must apply to the FAA and meet certain requirements in order to impose a PFC.

**RELIEVER AIRPORT:** An airport, including heliport, designated by the Secretary of Transportation as having the function of relieving current or forecast congestion at a commercial service airport and providing more general aviation access to the overall community.

**REVENUE:** Pertaining to transport activities for which remuneration is received by the carrier.

**REVENUE PASSENGER:** Person receiving air transportation for an air carrier for which remuneration is received by the carrier. Air carrier employees or others, except ministers of religion, elderly individuals and handicapped individuals, receiving air transportation against whom reduced rate charges (less than the applicable tariff) are levied are considered nonrevenue passengers. Infants for whom a token fare is charged are not counted as passengers.

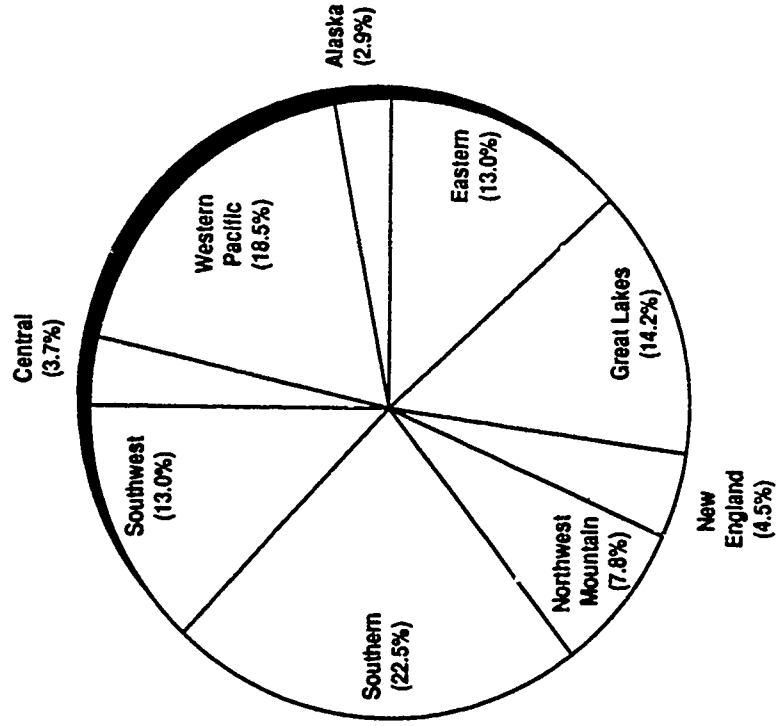

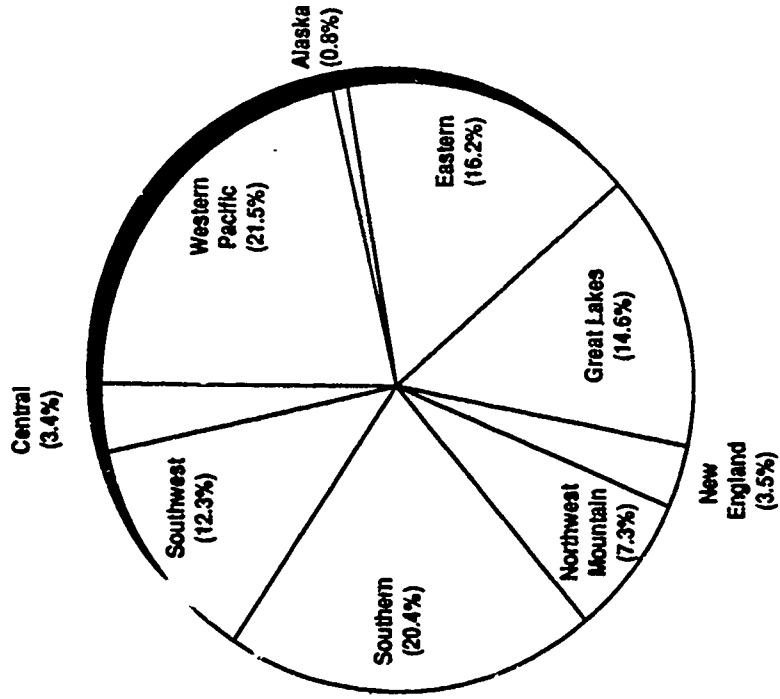

**SCHEDULED SERVICE:** Transport service operated pursuant to published flight schedules, including extra sections and related non-revenue flights.

**NOTE:** The terms in this Glossary are defined as they pertain to this publication.

## Table 10. VP

### Primary Airport Enplanement Activity

#### Listed by Rank Order

Note: There were 415 qualified Primary Airports based on Calendar Year 1991 enplanements. Table 15 lists 415 Primary Airports, ranked by total enplanements from 1 to 415; airports not listed do not qualify because they are military airports or did not enplane any scheduled revenue passengers.
